

Banking and Institutional Finance

Our Banking and Institutional Finance practice practice brings together more than 100 lawyers in offices across the United States, Europe, Middle East and Asia to represent lenders, arrangers, investors, funds, borrowers, issuers, underwriters and sponsors across the full range of complex financings. In 2018, we closed approximately 329 global finance transactions for our clients, amounting to over \$63.6 billion in aggregate financing.

Our team provides services in connection with private finance and other commercial transactions, including credit facilities on a syndicated and single-lender basis; merchant banking transactions; asset-based financings; mezzanine investments; acquisition financings; leveraged leases; real estate financings; private placements of debt securities; and credit enhanced transactions. In all transactions, the team combines both borrower and lender expertise to provide ambidextrous representation.
