

# Environmental, Social and Governance (ESG)

---

As ESG principles dominate discussions among businesses, shareholders, investors, regulators, and the public worldwide, King & Spalding is positioned to partner with our clients in every aspect of an ESG-focused future. Our team brings cross-disciplinary skills into this expanding sector, integrating regulatory, government advocacy, litigation, transactional, cross-border and human capital experience to identify ESG risks and opportunities. We partner with our clients to develop holistic new-horizon solutions.

Our ESG capabilities include:

- Advocacy
- Climate change
- Crisis management/risk mitigation
- Digital citizenship
- Diversity & Inclusion
- Due diligence
- Energy transition
- Environmental justice
- Ethics and compliance
- Governance and engagement
- Labor and employment and human capital
- Litigation and investigations
- Regulatory counseling
- Reporting and disclosures
- Supply chain management
- Sustainable finance
- Third party rating frameworks and ESG scores
- Transaction support
- Wages and benefits
- Workplace safety
